

W-PEKO® 2 IN 1 MACHINE

GENERAL

Two Machines in One: Heating oven and forming press

Application fields: Interior- Exterior design. Kitchen – Bathroom equipment etc,

Materials: Solid surface material, acrylic, felt.

MACHINE FEATURES

Heating Chamber

Useful working dimensions:

- 1300x2500mm
- 1300x3000mm
- 1300x3700mm

The heating chamber /
The oven is located in
the drawer

Max. temperature of the
heating chamber: 200 °C

Electric power: 18kW

Air circulation: 0,55x2
kW

Forming Press

Inner frame dimension:

- 1300x2500
machine
--> 1250x2400 to form

- 1300X3000
machine
--> 1250X2900 to form

- 1300X3700
machine
--> 1250x 3600 to form

Vacuum pump: 25m³/h

Max vacuum: 0,5 mbar
/ 99.95%

Heat resistant
membrane

Vacuum pump power:
0,75kW
