

## W-PEKO® 2 IN 1 MACHINE

### GENERAL

**Two Machines in One:** Multifunctional modular vacuum membrane press and heating oven in one machine intended for thermoforming.

**Application fields:** Interior- Exterior design. Kitchen – Bathroom equipment etc,

**Materials:** Solid surface material, acrylic, felt.

**Overall Dimensions:** 2in1 Machine 3150 x 1450 mm (H - 900 mm), Vacuum station 1000 x 500 mm (H - 640 mm)

**Power:** 17 kW

**Warranty:** 1 year

### MACHINE FEATURES

#### Heating Oven

Useful working dimensions:

- 960 x 2500 mm
- Max. working material height 0-70 mm

The oven is located in the drawer

Max. temperature of the heating chamber: 200 °C

Heating power: 15kW

Air circulation: 0,55x2 kW

#### Vacuum Membrane Press

Useful working dimensions:

- 1200 x 2900 mm

Silicone membrane 1-2 mm, temperature resistance up to 240°C

Bakelite platens, grooved for fast air extraction.

Manual opening and closing.

#### Vacuum Station

High performance oil lubricated vacuum pump.

- Final pressure: -997,0/-998,5 mbar
- Inlet capacity: 40 m3/h
- Vacuum tank: 20L
- Power: 1.1 kW

Digital vacuum switch for automatic stop.
